# Preface

This China Steel Yearbook 2011 is composed by China Steel Development Research Institute (CSDRI) which is a research institute under the directorship of CISA (China Iron & Steel Association).

CSDRI has published the Chinese edition of China Steel Yearbook since 1985 under the directorship of China Metallurgical Industry Ministry, the former of CISA. CSDRI has published the English edition of China Steel Yearbook since 2006.

All of the data in this book is from official government departments or from steel mills directly.

We would like to thank our global marketing agent, Steel Business Briefing (SBB), for their support.

# Contents

## **Macro-economic Development in 2010.....**

## **China steel industry in 2010.....**

1. Iron and steel production in 2010
  - 1.1 Output growth rate slow down
  - 1.2 Apparent consumption grown slowly
  - 1.3 Weighting of longs decreased and flats increased
  - 1.4 Stocks increase
2. Consolidation improved concentration ratio
3. Imports and exports
  - 3.1 Export increased and import decreased
  - 3.2 Exports of tubes increased and imports of flats soared
  - 3.3 Export mainly to South Korea and ASEAN
4. Steel Market
5. Business operations of large and medium-sized enterprises
6. Achievement in elimination of outdated capacity
7. Fixed assets investment recovered
8. Energy saving and environmental protection

## **Relative policies and regulations in 2010.....**

## **The science and technology progress of China's Steel industry in 2010**

1. National Technology Advancement Award
2. Science and Technology Award of Steel Industry

## **Production and consumption of steel products .....**

- 1 Production and consumption of hot rolled sheet/strip
  - 1.1 Slow growth of production
  - 1.2 Import decreased and export increased
  - 1.3 Apparent consumption increased slightly
  - 1.4 Market prices
- 2 Production and consumption of cold rolled sheet/strip
  - 2.1 Output increased significantly
  - 2.2 Exports increased significantly while imports decreased
  - 2.3 Apparent consumption increased strongly
  - 2.4 Market prices
- 3 Production and consumption of clad and coated sheet/coil
  - 3.1 Output increased obviously
  - 3.2 Import kept stable and export increased greatly
  - 3.3 Apparent consumption increased strongly
  - 3.4 Market prices
- 4 Production and consumption of plate
  - 4.1 Output increased steadily
  - 4.2 Export increased greatly
  - 4.3 Apparent consumption increased
  - 4.4 Market prices
- 5 Production and consumption of wire rod, rebar and bar
  - 5.1 Output increased steadily
  - 5.2 Exports increased sharply
  - 5.3 Apparent consumption increased steadily
  - 5.4 Market prices
- 6 Production and consumption of sections
  - 6.1 Output increased slightly
  - 6.2 Export increased sharply
  - 6.3 Apparent consumption decreased
  - 6.4 Market prices

- 7 Production and consumption of pipe
  - 7.1 Output increased
  - 7.2 Export increased steadily
  - 7.3 Apparent consumption increased slightly
  - 7.4 Market prices

**Production and consumption of raw materials.....**

- 1. Iron ore production and demand
  - 1.1 Iron ore production create a new record
  - 1.2 Iron ore imports decreased slightly
  - 1.3 Apparent consumption rose slowly
  - 1.4 Iron ore price
- 2. Production and consumption of coke
  - 2.1 Output increased quickly
  - 2.2 Coke exports increased sharply
  - 2.3 Apparent consumption
  - 2.4 Coke Prices
- 3. Production and consumption of ferroalloys
  - 3.1 Output increases at higher speed
  - 3.2 Import decreased and export increased
  - 3.3 Apparent consumption increased greatly
  - 3.4 Prices
- 4. Consumption of scrap
  - 4.1 Import decreased
  - 4.2 Prices

**statistics in 2010.....**

- Tab.1 Output of main products
- Tab.2 Output of main products by province
- Tab.3 Output of steel products by provinces

Tab.4 Import

Tab.5 Export

Tab.6 Output of the key steel companies

**Brief introduction of key steel companies.....**

**FAX TO UK +44 (0)20 7929 4666**

SBB proudly brings you the **only authorised publication** on the Chinese steel industry, with full details of sales and production figures about the major Chinese mills at company level.

The China Steel Yearbook has been a bestseller for over 20 years in Chinese, and is now published in English for the fifth year. Containing 374 pages, 97 diagrams and tables and 70 mill profiles, the Yearbook features essential information on:

- China's macroeconomic development
- Iron and steel production, capacity and consumption
- Information on China's key steel companies
- Relevant policies, laws and regulations
- Statistics in 2010

**The definitive Chinese steel industry analysis!**
